

 STRATEGIC CO-OP OFFERING

PRESENTING THE **kestreleight** STRATEGIC CO-OP OFFERING, IN PARTNERSHIP WITH **RED HAT** & TECH DATA

# OPEN THE DOOR TO **OVE**.

PERFORMANCE VIRTUALISATION & COST STABILISATION.

**UNLIMITED VMS!**

RUN AS MANY VMS AS YOU NEED.

## WHAT IS OVE?

The **Red Hat OpenShift** Virtualisation Engine (**OVE**) delivers proven virtualisation to deploy and scale VM workloads. By focusing exclusively on virtual machines, **kestreleight** removes container complexity, allowing you to pay only for density while securing a path for future innovation.

## UNIQUE LOCAL WRAP

We bundle high-end license entitlements with a local strategic managed service. We ensure your OVE environment meets Australian sovereign standards from wave one.

## PRODUCT VALIDATION

**RED HAT WINNER**

2025 CRN INNOVATOR AWARD

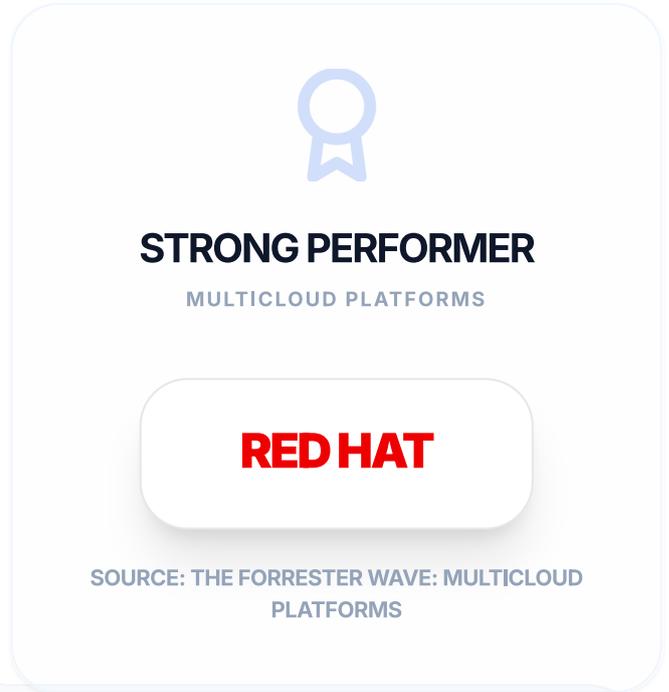

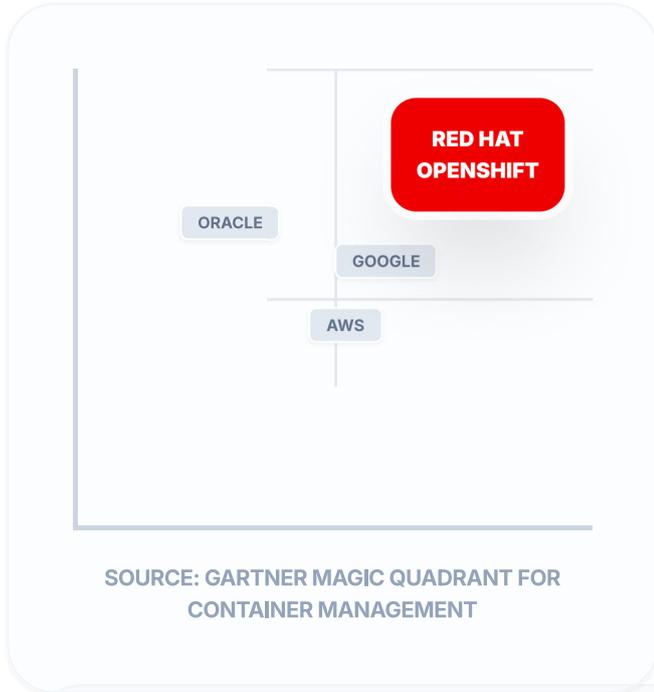

VIRTUALISATION SOLUTION

# PROVEN AUTHORITY.

Our **OVE** bundle leverages **Red Hat**'s position as the world's leading hybrid cloud platform. We ensure your estate is positioned for sovereign mobility.

GARTNER MAGIC QUADRANT 2025

FORRESTER WAVE Q3 2025

### MARKET MOMENTUM

- ✔ Unified Development & Operations Teams
- ✔ Sovereign Mobility across Cloud Providers

### THE HYBRID VISION

"OpenShift should bring developers and operations teams together for both Containers and Virtualisation."

### TRY OVE WITH KESTREIGHT

Start your 60-day self-supported product trial today.

✔ FULL PORTAL ACCESS

✔ ACM INCLUDED

TECHNICAL DENSITY • INFRASTRUCTURE SCALE

# DENSITY WITHOUT COMPROMISE.

**OVE** provides an elite engine built for high-throughput Australian enterprise without the complexity of traditional legacy stacks.

## 128 CORES

MAX CORE ENTITLEMENT

Drive more virtual workloads on significantly less hardware. Support for 128 cores per socket pair is double the industry standard.

## UNLIMITED

VM ACCESS PER NODE

Eliminate the per-VM budget risk. Whether you operate 10 or 1,000 VMs, your subscription footprint remains predictable.

### INTEGRATED MANAGEMENT PACK

RED HAT CORE + KESTREL OVERLAY

#### CENTRALISED CONTROL

Advanced Cluster Management (ACM) for thousands of nodes. Lifecycle automation from provisioning to decommissioning.

#### SOVEREIGN COMPLIANCE

Preconfigured logging and monitoring stack. Built to satisfy Australian ISM and Essential Eight requirements.

#### STRATEGIC OUTCOME

- ✔ BROADCOM RENEWAL TAKE-OUT
- ✔ UNIFIED OPERATIONS PLATFORM
- ✔ ASD ESSENTIAL EIGHT ALIGNMENT

EFFICIENCY PROJECTION

**40% COST SHIELDING**

STRATEGIC INVESTMENT • 2026 COMMERCIALS

# STABILISE YOUR FUTURE.

Our **OVE** offerings are bundled with **kestreleight** deployment strategy, providing a clean, all-in-one commercial model for Australian enterprise.

## STANDARD WRAP

**AUD  
\$6,000**

EX GST / 12 MONTHS

- ✔ 1-2 SOCKETS (UP TO 128 CORES)
- ✔ STANDARD RED HAT SUPPORT
- ✔ LAUNCH AUDIT INCLUDED

## RECOMMENDED

## PREMIUM WRAP

**AUD  
\$12,000**

EX GST / 12 MONTHS

- ✔ RED HAT PREMIUM 24X7 SUPPORT
- ✔ ACCELERATED IMPLEMENTATION
- ✔ TEAM ENABLEMENT WORKSHOP

## CLEAN SOLUTIONS THAT JUST WORK.

**kestreleight** works in coordinated synergy with **Red Hat** and Tech Data to deliver this bespoke OVE offering. We specialize in migration waves that remove technical debt.

By combining world-class product subscriptions with our senior strategic bench, we ensure your teams are enabled to manage the new platform with confidence.
